Objective

My aim is to gain an entry level position as a React developer and put my skills to use by contributing in the company's growth as well as my career as a developer.

Experience

- **Maxsoft Computer Solutions** 3rd September 2021 - 4th December 2021
Internship
 - Built a web interface component to support a coupon sale for the organisation's electronic sales with PHP setup on the backend
 - Led team in creating design patterns to be used in building other sections of the website pages
 - Designed and implemented an algorithm to solve the "30 day money back guarantee " on products.
 - Led to a 15%(minimum 20 new sales daily)increase in B2B interactions for Maxsoft due to the new feature.

Education

- **Technical University of Kenya** 2018 - present
Bachelor in Computer Science
Courses:Web development in Html,css and Javascript.

Skills

- Html
- Css
- Javascript
- React js Library
- MongoDB
